

The top marking and order numbers have been changed for the small outline surface mount packages. A "W" has been added to denote the wide surface mount, 0.300" package. There is no change to any electrical parameters or physical dimensions. These parts have always been 0.300" wide—there is no change other than the order number and the top marking. The proper order numbers are **LTC®1279CSW** and **LTC1279ISW** for the 0°C to 70°C and –40°C to 85°C temperature ranges respectively.

The shrink small outline package (SSOP) is available for the **LTC1279**. The order numbers are **LTC1279CG** and **LTC1279IG** for the 0°C to 70°C and –40°C to 85°C temperature ranges respectively.
