Files/Patches/Information for using CPLD Software

Filename	Size	File Description
abeldemo.zip	0 kB	XC9536 ISP Demo Board Johnson Shift Counter ABEL design. For All Platforms Uploaded: 02-27-97
abelhlp.zip	1547KB	Windows based help files for XABEL-CPL
cpld.lst	19 Kb	Includes details of all patches and revision history for CPLD software For All Platforms Uploaded: 04-04-97
eisp_hp.tar	291KB	XC9500 Embedded System ISP Code for the application note : XC9500 In-System Programming Using an 8051 Microcontroller. HP-version
eisp_pc.zip	121KB	XC9500 Embedded System ISP Code for the application note : XC9500 In-System Programming Using an 8051 Microcontroller. PC-version
eisp_sn.tar	759KB	XC9500 Embedded System ISP Code for the application note : XC9500 In-System Programming Using an 8051 Microcontroller. Sun4-version
eisp_sol.tar	483KB	XC9500 Embedded System ISP Code for the application note : XC9500 In-System Programming Using an 8051 Microcontroller. Solaris-version
eztag_hp.tar	775 kB	EZTag patch for the HP operating system. The description for the patch is included in CPLD.LST For HP-UX Uploaded: 03-13-97
eztag_pc.zip	789 kB	EZTag patch for the PC operating system. The

		description for the patch is included in CPLD.LST For Win 3.11 Uploaded: 03-13-97
eztag_sn.tar	748 kB	EZTag patch for the Sun operating system. The description for the patch is included in CPLD.LST For SunOS 4.x Uploaded: 03-13-97
fithptar.z	6242 Kb	XC9500 Fitter patch with XC95288 JEDEC file generation. The description for t patch is included in cpld.lst For HP-UX Uploaded: 04-04-97
fitterpc.zip	3112 Kb	XC9500 fitter patch with XC95288 JEDEC file generation. The description for t patch is included in cpld.lst For Win 3.11, Win 95 Uploaded: 04-03-97
fittersn.tar	4322 Kb	XC9500 fitter patch with XC95288 JEDEC file generation. The description for patch is included in cpld.lst For SunOS 4.x Uploaded: 04-04-97
fp.exe	7025 Kb	This is a self-extracting executable f the experimental 9500 floorplanner tha was demonstrated at the Jan FAE conference. For Win 95, Win NT 4.0 Uploaded: 04-16-97
genrad.zip	95 Kb	This is the GENRAD translator software (EZTag Version) needed to program XC95 CPLDs. The translator runs on PC and UNIX platforms. For DOS, Win 95, Win NT 4.0 Uploaded: 04-15-97
h3070_hp.tar	134 kB	Software file for programming XC9500 CPLD's on HP3070 Testers. Includes bug fix to support long wait times. For HP-UX Uploaded: 03-31-97
h3070_pc.zip	88 kB	Software file for programming XC9500 CPLD's on HP3070 Testers. Includes bug fix to support long wait times. For DOS, All Windows Uploaded: 03-31-97
h3070_sl.tar	123 kB	Software file for programming XC9500 CPLD's on HP3070 Testers. Includes bug fix to support long wait times. For Solaris 2.x Uploaded: 03-31-97
h3070_sn.tar	119 kB	Software file for programming XC9500

		CPLD's on HP3070 Testers. Includes bug fix to support long wait times.
		For SunOS 4.x
		Uploaded: 03-31-97
men9k.tar	138KB	See cpld.lst
ver9khp.tar	401KB	See cpld.lst
ver9ksun.tar	598KB	See cpld.lst
vhdldemo.zip	0 kB	XC9536 ISP Demo Board Johnson Shift Counter VHDL design. For All Platforms Uploaded: 02-27-97
vsprom.zip	5 kB	Application to program high-density XC4000E/EX using a XC7336 (1-Mbit Virtual SPROM Downloader) XC7336 ABEL file and associated programming file enclosed. For All Platforms Uploaded: 03-05-97
