

Software Product Description

PRODUCT NAME: RT²/PDT, Version 3B

SPD 12.13.0

DESCRIPTION:

RT²/PDT software provides, on a PDT-11, a Single Job (SJ) or Foreground/Background (FB) execute-only environment for applications that the user develops on an RT-11 Version 03B system. RT²/PDT includes a license to use, on a PDT-11 based system, a specified subset of RT-11, Version 03B. The license-only option allows duplication for a PDT-11 based system of special PDT monitors (included in the RT²/PDT software) as well as the specified subset of RT-11. It is the user's responsibility to integrate his application(s) with the PDT monitor, and to transport the resulting run-time system from the RT-11 Version 03B system to the target PDT-11 system.

RT²/PDT Version 03B licenses the user to copy only the following modules as distributed from DIGITAL:

From RT-11 Version 03B distribution:

MODULE	DESCRIPTION
PIP.SAV	Peripheral Interchange Program for file copying
DUP.SAV	Disk Utility Program for volume maintenance
DIR.SAV	Directory program for listing volume directories

From RT²/PDT distribution:

MODULE	DESCRIPTION
SWAP.SYS	Monitor scratch blocks for system swapping
PDMNSJ.SYS	PDT-11 Single Job Monitor
PDMNFB.SYS	PDT-11 Foreground Background Monitor
PDMNSJ.BL	PDT-11 Base Line Single Job Monitor
PDMNFB.MT	PDT-11 Multiterminal Foreground/Background Monitor
LP.SYS	Line Printer Handler
TT.SYS	Terminal Handler for Single Job Monitors

A single-use license is available to operate BASIC-11/RT-11, Version 2, as optional software under RT²/PDT. Applications developed under FORTRAN IV/RT-11 may be copied under the RT²/PDT license,

along with the FORTRAN IV OTS. The FORTRAN IV compiler may not be used on RT²/PDT.

MINIMUM HARDWARE REQUIRED:

PDT-11/150-AA, with 16K bytes of memory. An RT-11 Version 03B system is required for developing applications software and integrating the RT²/PDT monitor.

OPTIONAL HARDWARE:

- 30K words (60K bytes) of main memory
- RXT-11-EA Floppy diskette system
- LA180-P line printer
- LA36 hardcopy terminal
- VT52 or VT100 video terminal
- DFT11-AB Cluster Controller (3 EIA Ports)

PREREQUISITE SOFTWARE:

RT-11 Version 03B Operating System (with category A support).

OPTIONAL SOFTWARE:

BASIC-11/RT-11, Version 2

TRAINING CREDITS:

None

SUPPORT CATEGORY:

B — Software Support will be provided as stated in the Software Support Categories Addendum to this SPD.

UPDATE POLICY:

No updates are planned for this product.

ORDERING INFORMATION:

All binary licensed software, including any subsequent updates, is furnished under the licensing provisions of DIGITAL's Standard Terms and Conditions of Sale, which provide in part that the software and any part thereof may be used on only the single CPU on which the software is first installed, and may be copied, in whole or in part (with the proper inclusion of the DIGITAL copyright notice and any DIGITAL proprietary notices on the software) only for use on such CPU. All source licensed software is furnished only under the terms and conditions of a separate Software Program Sources Agreement between Purchaser and DIGITAL.

-2-

A single-use license only option is a license to copy the software previously obtained under license, and use such software in accordance with DIGITAL's Standard Terms and Conditions of Sale. The category of support applicable to such copied software is Category C.

The following key (Y, Z) represents the distribution media for the product and must be specified at the end of the order number, e.g., QJV33-AY = binaries on floppy diskette.

Y = RX01 Floppy Diskette
Z = No hardware dependency

Standard Options

- QJV33 -A— Single-use license, binaries, documentation, support services (media: Y)
QJV33 -D— Single-use license only, no binaries, no documentation, no support services (media: Z) Minimum quantity: 50. Requires one QJV33-A option.

ADDITIONAL SERVICES:

None

ADDENDUM SOFTWARE SUPPORT CATEGORIES

Each software product (hereinafter 'SOFTWARE') with a designated Support Category A or B in the applicable Software Product Description (SPD) existing at the time of order will be the current release at the time of delivery and will conform to the SPD. DIGITAL's sole obligation shall be to correct defects (nonconformance of the SOFTWARE to the SPD) as described below. Any SOFTWARE with a designated Support Category C will be furnished on an 'as is' basis.

For SOFTWARE with a designated Support Category A or B, DIGITAL will provide the services set forth below without additional charge.

CATEGORY A

1. Upon notification by customer to the nearest DIGITAL office that the computer system, including all required prerequisite hardware and software, is ready for the installation of the SOFTWARE, DIGITAL will install such SOFTWARE in any location within the contiguous forty-eight (48) United States, the District of Columbia, or a country in which DIGITAL or a subsidiary of DIGITAL has a software service facility. The notification must be received by DIGITAL and the system must be ready for installation within thirty (30) days after the delivery of the SOFTWARE to customer or DIGITAL will have no obligation to install. Installation will consist of: (1) verification that all components of the SOFTWARE have been received by customer, (2) loading the SOFTWARE, and (3) executing a DIGITAL sample procedure.
2. During the ninety (90) day period after installation, if the customer encounters a problem with the current unaltered release of the SOFTWARE which DIGITAL determines to be a defect in the SOFTWARE, DIGITAL will provide the following remedial service (on site where necessary): (1) if the SOFTWARE is inoperable, apply a temporary correction (TC) or make a reasonable attempt to develop an emergency by-pass, and (2) assist the customer to prepare a Software Performance Report (SPR) and submit it to DIGITAL.
3. During the one (1) year period following installation, if the customer encounters a problem with the SOFTWARE which his diagnosis indicates is caused by a SOFTWARE defect, the customer may submit an SPR to DIGITAL. DIGITAL will respond to problems reported in SPRs which are caused by defects in the current unaltered release of the SOFTWARE via the Maintenance Periodical for the SOFTWARE, which reports SPRs received, code corrections, temporary corrections, generally useful emergency by-passes and/or notice of the availability of corrected code. Software Updates, if any, released by DIGITAL during the one (1) year period, will be provided to the customer on DIGITAL's standard distribution media as specified in the applicable SPD. The customer will be charged only for the media on which such updates are provided, unless otherwise stated in the applicable SPD, at DIGITAL's then current media prices.

CATEGORY B

During the one (1) year period following delivery, the services provided to the customer will be the same as set forth in 3 above.

CATEGORY C

SOFTWARE is provided on an 'as is' basis. Any software services, if available, will be provided at the then current charges.

DIGITAL shall have the right to make additional charges for any additional effort required to provide services resulting from customer use of other than current unaltered release of the SOFTWARE operated in accordance with the SPD.
