

# Software Product Description

---

**PRODUCT NAME: SSP-11, Version 1.3**  
**PDP-11 Scientific Subroutine Package**

**SPD 15.45.8**

## **DESCRIPTION:**

The Scientific Subroutine Package (SSP) is a collection of over 100 mathematical and statistical routines commonly required in scientific programming. The subroutines are written in FORTRAN and contain no I/O statements.

Many of the larger statistical routines are provided as a collection of several smaller routines. This enables easier incorporation in larger programs requiring overlays.
