1. Find Everything

Find Everything
-- Stored on: [Mono:OSBU North] Where to find it
-- Stored on: [WS Emulations:OSBU North] Where to find it
-- last edited by Kennedy:Sunnyvale:Xerox - February 2, 1989 5:38 PM

Please send corrections or updated information to: FindMaintainer:OSBU North.

The following list is maintained by and for the benefit of Document Applications implementors. However, we have found even its prototype versions so useful that we wish to share it with the DSBU (Document Systems Business Unit) community at large.

It is
updated frequently,
available on two different servers, and
available in the four popular formats
ViewPoint Document: Find Everything
Interpress document: FindEverything.ip
Plain text: FindEverything.txt
ViewCards: Find Everything (stored on [Colorado:OSD Associates] Public ViewCards)

5. ASKING QUESTIONS

Send mail messages to these distribution lists to have your questions answered. See the Consultants section of this list for the location of digests from these lists.
VPUserConsultants: All Areas
for questions about using ALL supported ViewPoint applications, booting ViewPoint, installing ViewPoint, using the Installer

BWSConsultants: All Areas
for questions about programming in Mesa with ViewPoint as the target environment

ServicesConsultants: All Areas
for questions about using, installing, and booting Services, and writing Services or programs that use Services interfaces

BWSShacks: All Areas
for announcing ViewPoint hacks or requesting a hack to be written.
QUESTIONS ABOUT A SPECIFIC HACK SHOULD BE SENT TO THE HACK'S AUTHOR, WHOSE NAME CAN BE FOUND IN THE DOCUMENTATION

XDEConsultants: All Areas
for questions about using XDE or programming in XDE with XDE as the target environment

MesaHacks: All Areas
for announcing XDE hacks or requesting a hack to be written.
QUESTIONS ABOUT A SPECIFIC HACK SHOULD BE SENT TO THE HACK'S AUTHOR, WHOSE NAME CAN BE FOUND IN THE DOCUMENTATION OR BY TURNING ON THE "AUTHOR" BOOLEAN IN THE FILETOOL OPTION WINDOW AND REMOTE-LISTING THE HACK

CuspSupport: All Areas
for questions about using Cusp or programming in Cusp (the CUStomer Programming language that lets you create customized office applications and automate tasks normally carried out manually on the ViewPoint desktop).

ArpanetSupport`:PA
for Arpanet related questions. There is no NS group for ArpanetSupport. VP users need to use the Math keyboard to get the up-arrow. Refer to [PARC Public:PARC:Xerox]<NetInfo>Doc>ExternalMail.vp (.ip, .txt), your local administrator, and/or CINSupport: All Areas for general information and questions.

ArisiaAdmin`:PA
(ArisiaAdmin`.PA)
Account requests and problems with Arisia:PARC:Xerox, the Sun/BSD 4.3 Unix machine which provides FTP and Telnet access to Arpanet hosts.

EVMS-Support: OSBU South:Xerox (EVMS-Support.osbuSouth)
Questions on EVMS (XNS for the VMS Operating System)

ExpertConsultants: All Areas:Xerox (ExpertConsultants.allAreas)
for questions about using the Expert engineering workstation software

TypefounderSupport: All Areas:Xerox (TypefounderSupport`.x)
for questions using Typefounder tools and submitting reports of problems

TrilliumSupport: All Areas:Xerox (TrilliumSupport`.X)
Members of the Trillium Community who provide technical support
for Trillium

GenesisConsultants: All Areas: Xerox  (GenesisConsultants.allareas)
Questions About the Genesis PWB/PWBA Development System

PCNetConsultants: All Areas: Xerox  (PCNetConsultants.allareas)
Questions regarding XC80, XNS PC + and XC20.

PSConsultants: All Areas: Xerox  (PSConsultants.allareas)
For Engineers to field Print Service Issues and Problems

6. BASIC WORKSTATION

See Archive/Integration/Working directories for software.

See ViewPoint for other information.

7. CLASSIFIED DIRECTORY (Sunnyvale)

[Tundra:OSBU North]Public Tundra/SunnyvaleClassifieds  -- VP document
[Tundra:OSBU North]Public Tundra/SunnyvaleClassifieds.ip  -- interpress

8. COMPETITIVE FLYER

[FS7:PARC]Competitive Flyer contains:
-- Back issues of Competitive Flyer;
-- A folder of documents for each year of Xerox press coverage, with the citations grouped by month;
-- Company files.

9. CONSULTANTS DIGESTS

[UCLA:OSBU South]Cons/  -- Services and ViewPoint Consultants Mail files

[Hal:OSBU North]XDEConsultants/  -- XDE Consultants Mail files

[FS4:PARC]BWSDigests  -- BWS Consultants digests

[UCB:OSBU South:Xerox]EVMS-Public/Digests/  -- EVMS

[CASE:WBST128:Xerox]TypefounderSupport/  --- Typefounder mail files

For Rank Xerox users, back issues of digests can be found on

To find out all the dl’s you’re on, there is a series of docs called inverted dl’s which give all
of the members of a domain and the lists they are members of. It can be found on

Salient DLs
BasePortMgrs:OSBU North
Salient Base Port Managers dl: Mtg. Announce, interim status on issues; should only
be used for management/coordination matters such as scheduling meetings, or
raising issues that need the attention of the managers

BasePortInfo:OSBU North
Salient Base Port team members and friends, status reports; should only be used for
matters pertaining to coordinating/reporting status of the direct Baseport tasks

SalientImplementors:OSBU North
Salient Implementors, includes co-developers at PARC

SunUsers:OSBU North
Information distribution for users of Sun workstations at Sunnyvale; includes many
people all over Xerox, many not associated with Salient

DLs for Sharing Information:
MesaFolklore:All Areas:Xerox (MesaFolklore*.x)
is for sharing useful information about Mesa, Pilot, and XDE. XDE Consultant's Digests
are announced to this list. Please send questions to the appropriate consultants list,
NOT to this list.
MesaHacks: All Areas: Xerox (MesaHacks*.x)
is for messages and questions about unsupported XDE software. The conventions for hacks are described in [Goofy:OSBU North:Xerox]<Hacks>12.3>Doc>HackRules.doc. If you have a question about a specific hack, please try to contact the owner before querying this DL.

MesaUsers: All Areas: Xerox (MesaUsers*.X)
is for distribution of official information about Mesa/Pilot releases, and reaches all users and programmers of Mesa and Pilot. It has very wide distribution and should be used responsibly. Please send questions to the appropriate consultants list, NOT to this list.

BWSHacks: All Areas: Xerox (BWSHacks*.x)
is for messages about unsupported ViewPoint software. The conventions for hacks are described in [Alt:OSBU North:Xerox]<BWSHacks>BWSHacksRules.doc. If you have a question about a specific hack, please try to contact the owner before querying this DL.

BWSForum: All Areas: Xerox (BWSForum*.x)
6085Users: All Areas: Xerox (6085Users*.X)
are both for discussions about BWS and ViewPoint use. 6085Users is more active.

PhoenixClients: OSBU South: Xerox (PhoenixClients*.pa)
is for discussion of BWS programming, tips and hints. BWS digests are announced to this DL.

TypefounderInterest: All Areas: Xerox (TypefounderInterest*.X)
is for sharing information about the Typefounder font production software.

EVMS-Interest: All Areas: Xerox (EVMS-Interest*.x)
is for sharing information about XNS on the VMS operating system. Digests are announced to this DL.

CUsers: OSBU North: Xerox (CUsers.osbuNorth)
is for tips and discussion of the C (on XDE or ViewPoint) language tools and interfaces.

TCP-IPUsers: OSBU North: Xerox (TCP-IPUsers.osbuNorth)
is for discussion of the TCP/IP protocols and Arpa tools.

SunUsers: All Areas: Xerox (SunUsers*.X)
Announcements of interest to all SUN users at Xerox

ArpanetUsers: All Areas: Xerox (ArpanetUsers*.x)
is for distribution of official information about Arpanet status, policies, etc. Do NOT send mail to this DL. Send questions to CINSupport: All Areas or ArpanetSupport*.PA as appropriate (see "How to get help from consultants" message).

LispUsers: All Areas: Xerox (LispUsers*.X)
is for official announcements and release messages about Xerox/Envos Lisp.

LispFolklore: All Areas: Xerox (LispFolklore*.X)
is for discussion of Xerox/Envos Lisp features, requests, and hints.

Cusplnterest: All Areas: Xerox (Cusplnterest.AllAreas)
is for discussions about Cusp, and sharing Cusp applications and tips.
Here are some other lists that may be of interest to users of various systems. You can use Maintain or VP Maintain to get a summary of each of these lists. Complete lists of all DLs sorted by domain can be found on:

28.PUBLIC TRANSPORTATION (Sunnyvale)

An information display on transportation has been put in the main building 5 break room (room 523). The information, mostly from the Santa Clara County Transit District, includes bus, CalTrain, and light rail transit (trolley) maps and schedules.

If you want information about bus, CalTrain, or light rail, go by this information display first. If you do not see what you need there, please call the Santa Clara County Transit District (for bus or light rail information) at (408) 287-4210 or CalTrain (for information about the rail service between San Francisco and San Jose, which includes a stop at Lawrence Station near Lawrence Expressway) at (800) 558-8661.

If you need more information about bus, CalTrain, or light rail or have comments or questions about the transportation display in the main building 5 break room, please contact Steven Levin by electronic mail (SLevin:OSBU North), by telephone (737-4799), or in person (building 5, room 606).

[Mountlowe02:XSIS]XDE Training
/MesaCourse
/Tutorials
/Tutorials Manual
/ViewPointProgrammingCourse

(All the tutorial files are called Teach-something and there are .cm files which will retrieve all the necessary files for you, assuming you already have FTP.bcd on your workstation. The .cm files are called:
Get12.3Tutorials.cm and Get14.0Tutorials.cm

The recommended order for using the tutorials is:

TeachBasics.nsmail
TeachFiles.nsmail
TeachMailSystem.nsmail

and then whatever you want or need after that.)
